

IEEE International Symposium on Wireless Pervasive Computing

May 5-7, 2010 - Palazzo Ducale, Modena, Italy http://www.iswpc.org/2010/

General Chair
Maria Luisa Merani, University of Modena and Reggio Emilia, Italy

Technical chair
Mario Gerla, UCLA, USA

Technical co-chairs
Ekram Hossain, University of Manitoba, Canada

Ilenia Tinnirello, University of Palermo, Italy

Panel chair
Giuseppe Bianchi, University of Roma Tor Vergata, Italy

Tutorial chair
Rajeev Shorey, NIIT University, India

Finance chair
Giovanni Giambene, University of Siena, Italy

_____

Keynote speakers
Muriel Medard, MIT, USA

Keith Ross, New York University, USA

IEEE ISWPC 2010: CALL FOR TUTORIALS

IEEE ISWPC (IEEE International Symposium on Wireless Pervasive Computing) Organizing Committee invites proposals for tutorials to be held in conjunction with the conference. Tutorials are an effective way to educate and/or provide the necessary background to the intended audience enabling to understand technical advances.

For IEEE ISWPC 2010, we are seeking tutorials on all topics related to advanced wireless communications and networking. A tutorial may be a theme-oriented comprehensive survey, discuss novel techniques or may center around successful and timely applications of wireless communication/networking.

The typical tutorial will be 3 hrs long. Proposals have to be submitted electronically by February 15, 2010 to:

Rajeev Shorey
President, NIIT University, India
e-mail: rajeevshorey@gmail.com

A proposal has to be submitted in **PDF format** (for other formats please contact the tutorial chair first) and include the following information:

- **Basic information**: Title, brief description, name and contact information for the instructor, length of the proposed tutorial. Also identify any other venues where the tutorial has been or will be presented.
- **Audience**: Proposals must clearly identify the intended audience for the tutorial (e.g., novice, intermediate, expert).
  - What background will be required of the audience?
  - Why is this topic important/interesting to the ISWPC 2010 community?
  - What is the benefit to participants?
  - Provide some informal evidence that people would attend
- **Coverage**: Enough material should be included to provide a sense of both the scope of material to be covered and the depth to which it will be covered. The more details that can be provided, the better (up to and including links to the actual slides or viewgraphs).
- **Bios**: Provide brief biographical information on each instructor (including qualifications with respect to the tutorial's topic).

Timeline

- **Tutorial submission deadline**: February 15, 2010
- **Decision Notification**: March 15, 2010
- **Complete Set of Tutorial Viewgraphs (Slides)**: April 25, 2010
